

AR Credential Denials Script

Scenario: Claim Denied – Provider Not Certified/Eligible on DOS

Pre-Call Prep for Trainees

1. **Check EOB/Denial code:** CO-185, CO-170, or PR-16 are commonly used.
 2. **Review claim details:** Provider NPI, Tax ID, Specialty, Date of Service, CPT code.
 3. **Check credentialing status in PMS:** Was provider credentialed with payer for that DOS?
 4. **Gather supporting docs:**
 - Provider credentialing approval letter (if received after DOS).
 - NPI/Taxonomy details.
 - Corrected claim if billing under a different rendering provider.
 - Any CAQH/contract submission confirmation.
 5. **Know escalation path:** Sometimes needs **appeal + credentialing team involvement**.
-

Variation A – Payer says provider not credentialed at all

AR (Opening):

“Hi, this is Alex from Dr. Green’s billing office. I’m calling about claim #123456789 for Jane Doe, DOS 08/05/2025. The claim was denied as provider not certified/eligible on that date.”

Insurance Rep:

“Yes, this provider is not credentialed with us at any time.”

AR:

“Understood. Could you confirm if a corrected claim can be billed under another credentialed provider in the group? If not, I’ll coordinate with our credentialing team to resolve.”

Insurance Rep:

“You’ll need to resubmit under a participating provider or appeal if you believe this was incorrect.”

AR Credential Denials Script

Closing:

“Thank you, I’ll coordinate with our credentialing team and follow up. Call logged, follow-up in 10 business days.”

Variation B – Payer says provider was credentialed but not effective on DOS**AR (Opening):**

“Calling about claim #456789123 for John Smith, DOS 07/15/2025. Denied as provider not eligible.”

Insurance Rep:

“This provider is credentialed, but effective date is 08/01/2025, not 07/15/2025.”

AR:

“Thanks for clarifying. Can we submit a corrected claim under another credentialed provider, or do we need to appeal for reconsideration?”

Insurance Rep:

“Corrected claim under a credentialed provider should be submitted. Appeal won’t overturn the denial.”

Closing:

“Got it, will rebill under the eligible provider. Follow-up scheduled after resubmission.”

Variation C – Payer says credentialing pending on DOS**Insurance Rep:**

“This provider’s credentialing was still pending on DOS, so claim denied.”

AR:

“We submitted credentialing before DOS. Can we appeal with proof of submission and approval letter showing later effective date?”

Insurance Rep:

“Yes, send credentialing documents via fax or portal. Appeals take 30 days.”

Closing:

“Appeal will be submitted today with credentialing proof. I’ll follow up after 30 days. Call logged.”

AR Credential Denials Script

Variation D – Escalation to Supervisor

AR:

“Since the provider’s credentialing was submitted before DOS, may I speak with a supervisor for reconsideration?”

Supervisor:

“If you can submit credentialing confirmation showing application date before DOS, we may allow retro-effective credentialing through appeal.”

AR:

“Thank you, I’ll send the documents and track status.”

Variation E – Follow-Up Call After Appeal

AR:

“Hi, I’m following up on appeal submitted on 09/01/2025 for claim #123456789. Has it been reviewed?”

Insurance Rep:

“Yes, under review, decision expected by 09/20/2025.”

AR:

“Thank you, I’ll follow up after that date. Call logged.”

AR Credential Denials Script

Scenario: Provider is enrolled, but claim denied as not certified/eligible

Pre-Call Prep

- Verify **NPI, Tax ID, Taxonomy** used in claim.
 - Check **provider effective date** in payer portal.
 - Confirm claim billed under **correct rendering vs group NPI**.
 - Have **credentialing letter or payer portal screenshot** ready.
 - Prepare to request **reprocessing**.
-

Variation A – Payer admits provider is enrolled, wrong NPI used

AR (Opening):

“Hi, this is Alex from Dr. White’s office. I’m calling about claim #99887766 for Jane Doe, DOS 08/05/2025. The denial says provider not certified, but our records show Dr. White is enrolled with you.”

Insurance Rep:

“I see here Dr. White is enrolled, effective since 06/01/2025. But the NPI on the claim doesn’t match his enrolled NPI.”

AR:

“Thank you for checking. Can we submit a corrected claim with the correct NPI to have it reprocessed?”

Insurance Rep:

“Yes, submit corrected claim electronically.”

Closing:

“Perfect, I’ll correct and rebill today. I’ll follow up in 15 business days.”

Variation B – Payer says provider enrolled, but taxonomy mismatch

AR Credential Denials Script

Insurance Rep:

“Yes, provider is credentialed, but claim billed under an incorrect taxonomy. Our system didn’t recognize the specialty.”

AR:

“Thanks for clarifying. If we rebill with the correct taxonomy, will that resolve the denial?”

Insurance Rep:

“Yes, corrected claim with right taxonomy should process.”

Closing:

“Got it, we’ll fix and resubmit today. I’ll monitor claim status.”

Variation C – Payer system lag**Insurance Rep:**

“I see provider is credentialed, but the claim was submitted before our system updated with the effective date.”

AR:

“Understood. Since provider is already active in your system now, may I request claim reprocessing without resubmission?”

Insurance Rep:

“Yes, I can forward for reprocessing. Reference number 12345.”

Closing:

“Thank you for helping. I’ll follow up in 10 business days with that reference number.”

Variation D – Payer says still showing as ineligible in system**Insurance Rep:**

“Our system still shows the provider as ineligible on DOS, even though you say credentialing is done.”

AR:

“We have the credentialing approval letter effective 06/01/2025. May I fax or upload it for review so the claim can be corrected?”

Insurance Rep:

“Yes, please send via fax 800-555-1234, attention Provider Relations.”

AR Credential Denials Script

Closing:

“Perfect, I’ll send today and call back in 15 days. Thanks for your help.”

Variation E – Escalation**AR:**

“Since provider is already credentialed and we have supporting documents, could I escalate this to a supervisor for reconsideration?”

Supervisor:

“Yes, submit the credentialing documents with appeal, and we’ll retro-activate for the DOS if valid.”

AR:

“Thank you, I’ll send documents today and track the appeal.”

Training Script: Rendering Provider Not Eligible to Perform Service

Pre-Call Prep

1. Review **claim (CPT, DOS, provider NPI, taxonomy)**.
 2. Confirm **payer eligibility for provider type/specialty** (via portal or contract).
 3. Check if procedure needs **supervising provider or incident-to billing**.
 4. Collect **credentialing documents, contracts, supervision agreements**.
 5. Be ready to ask:
 - Can claim be rebilled under supervising provider?
 - Is appeal allowed with documentation?
-

Variation A – Payer says provider not eligible for CPT

AR:

“Hi, this is Alex from Dr. Brown’s office, calling about claim #55667788 for DOS 08/10/2025. Denied as rendering provider not eligible for service billed.”

Insurance Rep:

“Yes, the rendering provider is an NP, and this CPT requires an MD.”

AR:

“Thank you for clarifying. Can this claim be corrected and billed under the supervising MD on file?”

Insurance Rep:

“Yes, you can submit a corrected claim under the MD.”

Closing:

“Great, I’ll correct and rebill under the MD today. Follow-up in 15 days.”

Variation B – Provider eligible, but wrong taxonomy used

AR Credential Denials Script

Insurance Rep:

"I see provider is credentialed, but claim was billed under a taxonomy that doesn't allow this CPT."

AR:

"Thanks for confirming. If we rebill with the correct taxonomy, will it process?"

Insurance Rep:

"Yes, corrected claim with the right taxonomy should resolve this."

Closing:

"Got it, will fix taxonomy and resubmit. I'll track status after 10 days."

Variation C – Payer says service not allowed for provider type**Insurance Rep:**

"This CPT is not payable when performed by a physical therapist. It's covered only under a physician."

AR:

"Understood. For services already provided, is appeal possible with medical necessity documentation, or is rebilling under supervising physician required?"

Insurance Rep:

"Appeal with documentation may be submitted, but rebilling under supervising physician is preferred."

Closing:

"Okay, we'll prepare corrected claim and supporting docs. Appeal submitted if needed."

Variation D – Escalation**AR:**

"We have records showing this provider is credentialed and eligible. May I escalate for reconsideration?"

Supervisor:

"If you submit credentialing proof and scope of practice, we can review under appeal."

AR:

"Thank you, we'll send today and follow up after 30 days."

AR Credential Denials Script

Variation E – Follow-Up

AR:

“Calling to check status of appeal submitted 09/05/2025 for claim #55667788.”

Insurance Rep:

“Yes, appeal is under review, expected decision by 09/20/2025.”

AR:

“Thank you, I’ll follow up after that date.”

Trainee Notes

- Some CPTs **restricted by provider type** → Always check payer policy before billing.
 - If claim denied:
 - **Corrected claim under supervising MD** (if applicable).
 - **Correct taxonomy rebilling.**
 - **Appeal with credentialing/scope documents.**
 - Always document denial reason + next action.
