## Scenario: Claim Denied – Coverage Terminated

---

### Variation A – Coverage Terminated Before Date of Service

#### Opening

AR: “Good morning, this is Alex from Dr. Smith’s billing office. I’m checking claim status for patient John Miller, DOB 05/10/1980, DOS 08/05/2025. Do you need provider NPI or Tax ID to locate the claim?”

#### Body

Insurance Rep: “I see the claim here. It was denied because the member’s coverage terminated on 07/31/2025. DOS 08/05/2025 is after termination.”

AR: “Thank you. So to confirm, the patient was not eligible on the date of service, and the claim is patient responsibility?”

Insurance Rep: “Yes, that’s correct.”

AR: “Could you provide termination date and reason on file?”

Insurance Rep: “Coverage terminated 07/31/2025 due to non-payment of premium.”

#### Closing

AR: “Understood. I’ll update our records and follow up with the patient. Thank you for your assistance today. Have a good day.”

---

### Variation B – Coverage Terminated After Service (Retro Denial)

#### Opening

AR: “Hello, this is Alex calling from Dr. Smith’s billing department. I need the status of claim for Maria Gonzalez, DOB 12/14/1982, DOS 07/20/2025.”

#### Body

Insurance Rep: “Claim initially showed active, but the policy was retro-terminated back to 07/01/2025. The DOS 07/20/2025 falls after termination.”

AR: “Thank you. Could you confirm when this termination was updated in your system?”

Insurance Rep: “It was processed on 08/10/2025, effective back to 07/01/2025.”

AR: “I see. So the denial is due to retroactive termination, and no payment will be issued?”
